The US Exchange Rate strengthened by 1%, following the Reserve Bank's increase in the official Australian interest rate from 0.1% to 0.35%.

The increase took the US Exchange Rate to 71.07ϕ on Wednesday; and to a fall in wool prices in Australian currency on both days. The EMI remained unchanged in US currency after the strengthening of the US Exchange Rate.

There were falls of around 1%, or less, across nearly all average individual AWEX Micron Price Guides.

Buyers for China were dominant, with support from buyers for India.

Looking ahead, offerings for the coming three sales are expected to range from 31,435 bales to 37,291 bales and to be 11.3% less than in the same period last year. The forecast progressive difference to Week 50 is +7.9%.

In other countries, South African sales are in recess this week and will resume next week.
